EDUCATION AND TRAINING

- May 2026 – November 2026 (Ongoing):** Full Stack & AI Professional Training
- 2022 – 2025:** Engineering cycle in Computer Science and Networks, MIAGE option, at the Moroccan School of Engineering Sciences **EMSI**
- 2020 – 2022:** Preparatory years at the Moroccan School of Engineering Sciences **EMSI**
- 2019-2020:** Baccalauréat in Physics and Chemistry, French option (with Honors – “Bien”)

SKILLS

- Languages:** Java, JavaScript (ES6+), TypeScript, Python, PHP, C#, SQL
- Front-end:** React, Vite, Angular, HTML5, CSS3, Bootstrap, Tailwind CSS
- Back-end:** Spring Boot, Node.js, Express.js, Django, REST API
- Databases:** MongoDB, MySQL, PostgreSQL, SQL Server, Oracle
- DevOps:** Docker, Git, GitHub, CI/CD, Linux
- AI:** OpenAI API, Gemini API, Ollama, Mistral AI, Prompt Engineering, LLM Integration
- Architecture & Methods:** MVC, REST API, JWT Authentication, UML, Agile Scrum

CERTIFICATIONS

-  Introduction to Java and Object-Oriented Programming (Coursera)
-  Python for Everybody (Coursera)
-  React Basics (Coursera)
-  Software Engineering : Modeling Software Systems using UML (Coursera)
-  Agile with Atlassian Jira (Coursera)
-  Etudier en France : French Intermediate course B1-B2 (Coursera)

SOFT SKILLS

Team spirit, rigor, autonomy, technical curiosity, priority management

LANGUAGES

- Arabic: Native language
- French: Bilingual
- English: Working proficiency
- German: Intermediate

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – Web4Jobs

March 2025 – August 2025 | Casablanca, Morocco

Project: Asset management platform for coding centers (Morocco & Africa)

Tasks:

- Requirements analysis and UML modeling
- Front-End (ReactJS) & Back-End (Java Spring Boot) development
- Integration of an AI module (Ollama LLM) for predictive maintenance

Stack:

Java, Spring Boot, React JS, MySQL, Git, IntelliJ, Ollama

Web Developer Intern – Royal Air Maroc (RAM)

July 2024 – August 2024 | Casablanca, Morocco

Project: Centralized parts & maintenance management application

Tasks:

- UML design and modeling of the system.
- Development of the application's frontend and backend.
- Integration of maintenance planning and scheduling features.

Stack:

Java, Spring Boot, Thymeleaf, MySQL, Git

Web Developer Intern – Safilait (Bel Group)

August 2023 – September 2023 | Casablanca, Morocco

Subject: Development of an e-commerce website dedicated to the food industry sector

Tasks:

- System modeling with UML.
- Development of the website's frontend and backend.
- Database management for order tracking.

Stack:

HTML, CSS, JavaScript, PHP, MySQL

PROJECTS

- EasyJob – Intelligent recruitment platform
- MedCare AI – Intelligent medical management platform
- SmartLife AI – Intelligent daily assistant
- Smart Recruiter – Intelligent matching of job offers and CVs via LLM (Ollama)
- BookHub – E-book management and distribution platform (React / Spring Boot)
- QuizzApp (Android) – Mobile quiz app for driving license exams
- FitTrack Web App – Calorie calculator & nutrition tracking
